- ▶ Ethical behavior

## **Dr. Anil Jain**

MS, DNB

(Cardiothoracic & Vascular Surgeon)  
Founder Director, Epic Hospital

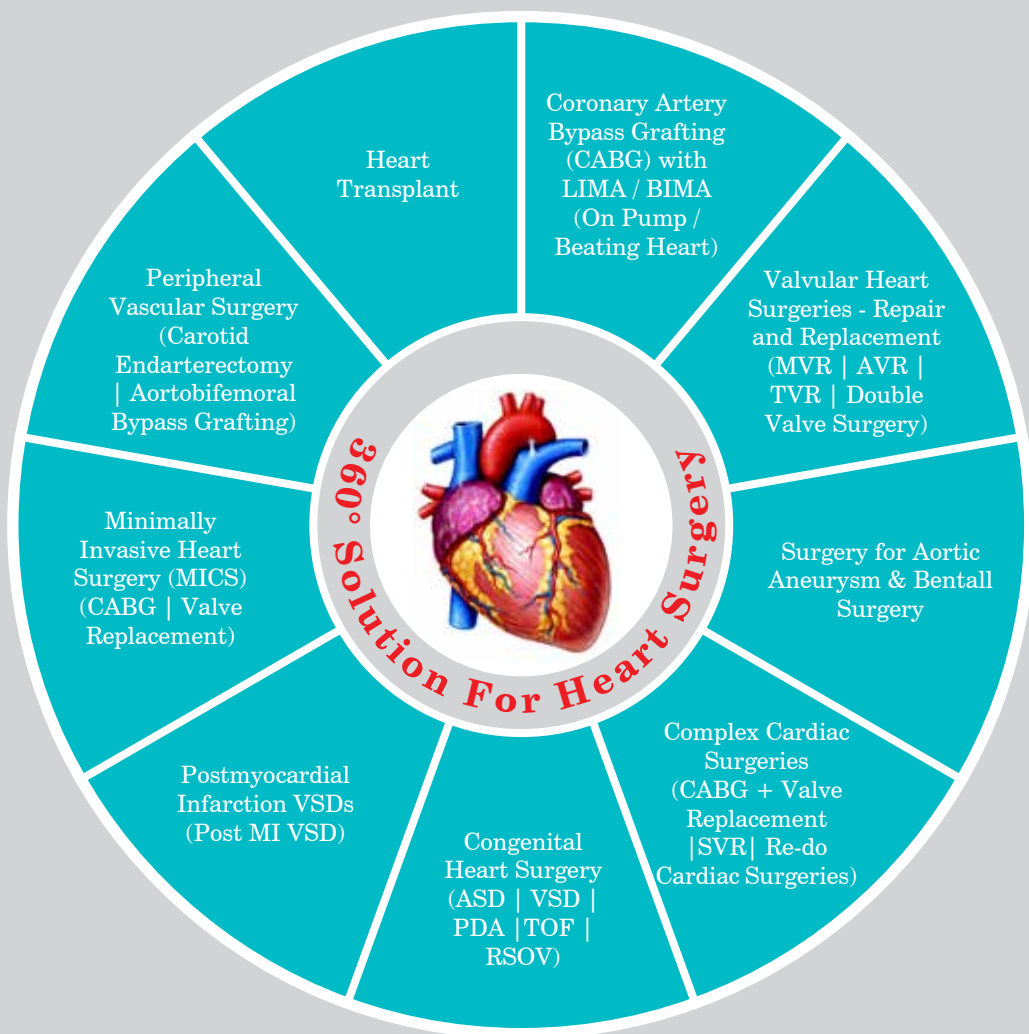

One of the oldest epic poems in the world is 'Odyssey', written thousands of years ago, is a story about a man who travels far and wide across ancient Greece fighting mythical monsters.

I too started my journey about three decades ago and have been on an epic journey of cardiac surgery, standing between life and death for thousands of patients fighting the dreadful heart diseases.

The road has been long and challenging, but it was made possible by the tirelessly working team of cardiac surgeons, cardiac anaesthetists, perfusionists, nurses and paramedical staff. However my vision had always been to provide patients with ultra modern facilities not only for heart diseases but encompassing all specialities of medicine & surgery and at the same time fostering an encouraging environment for the doctors & staff to work in. So along with some well-known doctors from other medical specialties, I founded Epic Hospital in September 2019. 'Epic Hospital' has been the realisation of that dream for me and my team. I thank everyone who has trusted us and come along on this journey to heal mankind.

# Department of Cardiothoracic & Vascular Surgery

## Services We Offer

## EPIC Achievements

- + 30+ Years In Cardiothoracic & Vascular Surgery
- + Pioneer In Coronary Artery Bypass Surgery In Gujarat, MP, Rajasthan
